# Enhancing chinook music store performance

Top 10 Genres of Songs

The goal of this project is to help the Chinook team understand the media in their shop, their customers and employees, and their invoice information.

To start exploring this goal, I used a pie chart to see how many genres of songs are in the store.

The figure shows Rock Next, Latin, Metal, Alternative, and Punk being the most popular genres in the store.

This result suggests having more tracks from various genres to be available in the store to improve sales.
